## TRUCOLOUR

We are delighted to announce that due to significant investment in new technology and process we are now able to offer exact Pantone matching on mug printing.

Now we can print your single or multi-coloured logo direct onto a select range of ceramic mugs and still guarantee that after firing the mugs your logo will be correct in colour.

We can offer this effect on both white mugs and also dark coloured mugs which previously suffered from ink transparency, fading and merging of colours.

Make your logo stand out and choose TruColour mugs!
